Almaty, Kazakhstan

EXPERIENCE

- Kaspi.kz** Dec 2025 - Feb 2026
Data Analyst Trainee Almaty, Kazakhstan
 - Developed real-time dashboards for monitoring call performance metrics (reach rate, coverage).
 - Built alerting system with threshold-based modeling for key call metrics.
 - Automated reporting of client interactions and call outcomes, reducing query execution time by 50%.Tech: Python, SAS, Grafana, Airflow, Excel, StarRocks, Oracle.
- LLC Altyn Shyghys** July 2023 - Dec 2025
Backend and Data Analytics Oskemen, Kazakhstan
 - Developed an application for automated data collection and logging from OPC, PLC, and Modbus devices.
 - Built a SCADA integration wrapper enabling data logging for unsupported devices.
 - Deployed real-time dashboards, alerts, and microservices for task and notification management, reducing downtime and response time.Tech: Python, Go, FastAPI, Docker, RabbitMQ, Nats, PostgreSQL, MongoDB.

EDUCATION

- Kaspi Lab** October 2025 – November 2025
Data Factory: Data Analysis Intensive Almaty, Kazakhstan
Skills: SQL, Data Visualization, ML, CV, NLP.
- Kazakh-British Technical University** Sept 2023 – June 2025
MSc Data Science Almaty, Kazakhstan
 - GPA: 3.58/4.00Skills: Pytorch, Keras, Kafka, Hadoop, Qdrant.
- East Kazakhstan Technical University** Sept 2019 – June 2023
BS in Information Systems Oskemen, Kazakhstan
 - Grade: 3.41/4.00Skills: C#, Python, SQL, ETL, Power BI.

PROJECTS

- Flip.kz Voice of Customer (VoC) and Root Cause Analysis (RCA) Study** 2026
Tools: [BeautifulSoup, Pandas, Scikit-learn, Sentence-Transformers, Llama, DSPy, Seaborn] 
 - Analyzed 28K products and 431K customer reviews from Flip.kz e-commerce platform for large-scale VoC and RCA modeling.
 - Built NLP pipeline using BGE-M3 embeddings and LinearSVC, achieving best RCA classification performance among evaluated models.
 - Designed RCA taxonomy and business impact scoring combining frequency, rating signals and review volume weighting.
 - Identified high-impact low-frequency issues (health and usability) that are critical for business prioritization.
- Educational Figure Generation using Text Perceptual Loss** 2025
Tools: [Pytorch, Albumentations, Tesseract, Wandb] 
 - Collected specialised dataset from textbooks (ML-FIGS).
 - Developed a custom autoencoder with Text Perceptual Loss to improve image reconstruction quality.
 - Trained a LDM model from scratch to generate educational visuals.

CERTIFICATIONS

- **KaspiLAB: Data Factory** *November 22, 2025*
- **Introduction to Neural Networks and PyTorch** *July 17, 2024*
- **Deep Learning with PyTorch : Generative Adversarial Network** *May 17, 2024*
- **Philosophy of Science** *November 9, 2023*

SKILLS

- **Programming:** Python, C#
- **Data Engineering:** SQL, ETL/ELT, Data Pipelines, Data Cleaning, Data Warehousing (DWH), Data Mart Development, Apache Airflow, Apache Kafka, Hadoop
- **Backend & ML Services:** FastAPI, Django, Streamlit, Telegram Bot API, REST APIs, Model Serving, Model Inference APIs
- **Machine Learning & AI:** PyTorch, Keras, Machine Learning, Deep Learning, Computer Vision, Natural Language Processing (NLP), Retrieval-Augmented Generation (RAG), Large Language Models (LLMs)
- **Databases:** PostgreSQL, Oracle, MongoDB, StarRocks, Qdrant
- **ORMs & Data Access:** SQLAlchemy, Django ORM
- **Data Analysis:** Pandas, NumPy
- **BI & Visualization:** Power BI, Grafana, MongoDB Atlas Charts, Data Visualization
- **DevOps & Tools:** Docker, GitLab
